Quick Start Tennis

This program works by getting children involved in the game immediately. Specially designed nets and color-coded balls created by the USTA (United States Tennis Association) have revolutionized the game for beginning players. Within the first hour of stepping onto the court, children are playing the game, rallying with one another, and having fun. Scaling the game and court down to their size helps make the learning process easier and more fun. These classes give children confidence by seeing their own immediate progress, making them more enthusiastic about continuing to play and improve. Green level classes prepare players to enter the Tennis Tournament Group: Novice level for players seeking more competitive direction.
